

Innovation Portal

Project Summary

Problem

Field challenges and ideas proposed/implemented to solve them are often not harnessed. Siloed information/project development across MSF can lead to duplication and missed opportunities.

Proposed Solution

Create an enabling environment where field problems and ideas can be harnessed into solutions, based on shared principles of innovation. Facilitate sharing of ideas, needs, insights, tools, etc.

Potential Impact

- Fosters innovation and collaboration
- Better engages the field in innovation
- Builds global communities / networks around field-focused problems

Viability

- Strong project team with track record of bringing innovation to MSF; Taps into internal innovation primes and external expertise

Risk Mitigation

- More focused, scaled-down agile approach reduces risk and provides tighter scope

Scalability

- Democratizes innovation by focusing on grass roots / field focus; Strong collaborative approach improves opportunity for scaling

Area/Type: Other; Incubator

Sponsor/Support: MSF UK

Length/Project Status: 6 months; **ONGOING**
